For the digital edition of Art Basel Miami Beach 2020, Tornabuoni Art is pleased to present **Beyond the Canvas: Avant-garde Italian Art**, a selection of works from iconic Post-War artists who reimagined what painting could be. Italian artists from this fertile period treated painting as a creative experiment about the nature of matter and art in the aftermath of war and the dawn of the space age. They pierced, slashed, pushed, pulled and eventually abandoned the canvas, in the process expressing new artistic languages, expanding the boundaries and exploring the physical properties of this medium, creating work that continues to influence succeeding generations of artists.

Exhibited artists: Carla Accardi, Alberto Biasi, Alighiero Boetti, Agostino Bonalumi, Enrico Castellani, Lucio Fontana, Emilio Isgrò, Michelangelo Pistoletto, Paolo Scheggi
